PERSONALITY DEVELOPMENT PROGRAM

Vikas Institute of Pharmaceutical Sciences always strives to inculcate professional soft skills, leadership quality in students. Soft skills help to handle interpersonal relationships with a strong sense of empathy. It is the need of the hour for every student to sharpen the soft skills to stand out as a promising asset in their professional life. Leadership is the quality with a few are born. A handy tool for those who lack leadership is to develop soft skills and to metamorphize a follower into a leader. The personality development program organized at Vikas Institute of Pharmaceutical sciences help students to develop the fore mentioned traits.

The learning outcomes of the personality development program are:

- Identify, understand and apply contemporary theories of leadership to a wide range of situations and interaction.
- To develop and nurture a deep understanding of personal motivation
- To develop and implement various memory improving techniques
- To develop public speaking skills and eliminating stage fear
- To develop various time management techniques

Speaker:

Dr Jaganath Rao

A Renowned National Motivational Speaker / Soft Skills & Life Skills Trainer / Personality / Development Trainer / Keynote Speaker who has trained more than 5 lakhs students across India.

Since 20 years, he engages Professional Motivational Training Programs like:

- * Interview Skills, Personality Development Training, Study Skills & Exam Skills for Student Community
- * Faculty Development Program (FDP) / Teacher's Training Programs
- * Corporate Training - Soft Skills & Life Skills Development
- * Motivational Seminars for Government Organizations
- * Life-Changing Motivational Seminars for Public at large

VIKAS INSTITUTE OF PHARMACEUTICAL SCIENCES
Near Airport, Nidigatla Road, Rajahmundry - 533102
(Approved by AICTE & PCI, New Delhi Affiliated to Andhra University, Vizag)

CIRCULAR

This is to inform all the 1st year students of B .Pharm, Pharm .D , M . Pharm that there is a 3 months "CLINICAL RESEARCH & CLINICAL DATA MANAGEMENT TRAINING" by CLINISOL on 06.02.2021-06.05.2021.

SCHEDULE

Morning 8 AM to Evening 7 PM

LUNCH BREAK : 1 – 2 PM

Hence, all the students are instructed to attend the classes without fail

Dr. G. SUMALATHA
PRINCIPAL
Vikas Institute of Pharmaceutical Science
RAJAHMUNDRY-533 102.

Dr.T.V.NARAYANA
PRINCIPAL

VIKAS INSTITUTE OF PHARMACEUTICAL SCIENCES

Near Airport, Nidigatla Road, Rajahmundry - 533102

(Approved by AICTE & PCI, New Delhi Affiliated to Andhra University, Vizag)

CLINICAL RESEARCH & CLINICAL DATA MANAGEMENT TRAINING

Clinical research industry professionals need a continuously updated education program in the form of good practices GXP (GCP, GLP, or GMP) or refresher training for better performance by getting updated on the new industry regulations and internal quality policies to contribute to the success of the organization. Receiving continuous education conjointly means that they're continually on the innovative of trade developments.

The use of CDM solutions and systems in the recent time has been on the rise for the companies, especially for multinational pharmaceutical corporations. With more massive clinical trial data and other medical information to maintain, CDM solutions are making it possible to handle complex trials and ensure data quality and integrity despite larger data volumes.

LEARNING OUTCOMES:

Clinical Data Management Process

- The phases involved in Clinical Data Management
- Documents and guidelines needed for best clinical data management practices
- Opportunity and Growth Areas

Needs Assessment

- Needs Assessment
- Set-up Activities
- Conduct & Close-out Activities
- Data Management Planning

Technology for Practice

- Oracle Clinical - RDC
- Oracle Architect
- Oracle Inform
- Medidata Rave

Dr. G. SUMALATHA
PRINCIPAL
Vikas Institute of Pharmaceutical Science
RAJAHMUNDRY-533 102.

Upon completion of this course, you will have an understanding of:

- What data management is and the purpose of a data management plan

DR.T.V.NARAYANA
PRINCIPAL

VIKAS INSTITUTE OF PHARMACEUTICAL SCIENCES
Near Airport, Nidigatla Road, Rajahmundry - 533102
(Approved by AICTE & PCI, New Delhi Affiliated to Andhra University, Vizag)

- The factors to be considered in the design and type of a case report form
- What should be taken into account when completing and data entering a case report form and closing the data set
- Considerations for data analysis
- What is important when deciding on a data management system

Dr. G. SUMALATHA

HETERO CAMPUS RECRUITMENT TRAINING PROGRAM

Hetero Drugs Limited operates as a pharmaceutical company. The Company researches, manufactures, and markets active pharmaceutical ingredients, intermediate chemicals, and finished dosages. Hetero Drugs serves healthcare industries globally. Ever since its establishment in 1993, hetero showed a tradition of excellence and deep sense of commitment in developing cost effective processes to offer wide range of affordable drugs.

Hetero is a leading international supplier with a rich portfolio of over 200 products from wide range of therapeutic categories both in active pharmaceutical ingredients and finished dosages. Hetero has 36 state of the art manufacturing facilities strategically located worldwide, audited and approved by stringent regulatory authorities like US FDA, EU, TGA-australia, MCC-south Africa and others.

Our portfolio includes 300+ products encompassing major therapeutic categories such as HIV/AIDS, oncology, cardiovascular, neurology, hepatitis, nephrology, urology, diabetes, ophthalmology, hepatology and immunology, etc. Hetero has a strong global presence in over 126 countries and focussed on making affordable medicines accessible to patients worldwide.

Hetero's strength lies in the talent and commitment of the 21000+ employees, who have been playing a vital role in contributing towards our business over the years. At hetero we provide an environment for personal and professional growth. A healthy work life balance is supported through a knowledge driven work environment where ideas and skills are valued, where people can realise a full potential through dedicated training programmes. Hetero strongly believes that each and every employee is the backbone of the organisation and their contribution is respected, recognised and rewarded.

Numerous opportunities exist for qualified, talented and passionate personnel from diverse backgrounds in various departments. No matter, if you are a fresher seeking a good break in pharma industry or an experienced hand with an ability to make the difference, you are welcome to join our pursuit towards excellence while you enjoy a career that is exciting.

OBJECTIVES:

To put Science to work for delivering affordable medicines that will help meet the health needs of every person on our planet.

JOB DESCRIPTION:

Roles and responsibilities

- Coordinating with internal departments like QC, QA, RA, PPIC.
- Maintaining customer database.
- Dispatch the samples to customers.
- Follow up with customers for the update status on the dispatched samples.

Dr. G. SUMALATHA

CIRCULAR

This is to inform all the 1st year students of B.Pharm, Pharm.D, M.Pharm that there is a 4 day "WORKSHOP ON ARTIFICIAL INTELLIGENCE IN HEALTH CARE" on 28/01/2021-31/01/2021.

SCHEDULE -

DAY 1 - 28/01/2021 - Morning 8 AM to Evening 7 PM

DAY 2 - 29/01/2021 - Morning 8 AM to Evening 7 PM

DAY 3 - 30/01/2021 - Morning 8 AM to Evening 7 PM

DAY 4 - 31/01/2021 - Morning 8 AM to Evening 7 PM

LUNCH BREAK : 1 - 2 PM

Hence, all the students are instructed to attend the classes without fail

WORKSHOP ON ARTIFICIAL INTELLIGENCE IN HEALTH CARE

Motivation and rationale for the workshop

Most of the medical data collected from healthcare systems are recorded in digital format. The increased availability of these data has enabled a number of artificial intelligence applications. Specifically, machine learning can generate insights to improve the discovery of new therapeutics tools, to support diagnostic decisions, to help in the rehabilitation process, to name a few. Researchers coupled with expert clinicians can play an important role in turning complex medical data (e.g., genomic data, online acquisitions of physicians, medical imagery, etc.) into actionable knowledge that ultimately improves patient care. In the last years, these topics have drawn clinical and machine learning research which ultimately led to practical and successful applications in healthcare. The purpose of this workshop is to present recent advances in artificial intelligence techniques for healthcare applications.

Topics

- Biomedical image analysis
- Data analytics for healthcare
- Automatic disease prediction
- Automatic diagnosis support system
- Genomic and proteomic data analysis
- Artificial intelligence for personalized medicine
- Machine Learning as tool to support medical diagnoses and decisions
- Machine learning on handwriting and eye tracking traces for diagnosis and rehabilitation
- Decoding of neural signal for diagnosis assistance
- Physiological signals processing
- Gait analysis
- Therapy selection
- Brain computer interface for healthcare
- Biomechanics for medicine
- Neuromotor rehabilitation

CIRCULAR

This is to inform all the 1st year students of B .Pharm , Pharm .D , M . Pharm that there is a 4 day “ **cGMP TRAINING BY PHARMACY TRAINING INSTITUTE**” on 28/12/2020-31/12/2020.

SCHEDULE –

DAY 1 - 28/12/2020 – Morning 8 AM to Evening 7 PM

DAY 2 – 29/12/2020 – Morning 8 AM to Evening 7 PM

DAY 3 – 30/12/2020 – Morning 8 AM to Evening 7 PM

DAY 4 - 31/12/2020 - Morning 8 AM to Evening 7 PM

LUNCH BREAK : 1 – 2 PM

Hence, all the students are instructed to attend the classes without fail

cGMP TRAINING

One of the principal objectives of this training program is to impart industry orientation training/education to the fresh graduates from the Colleges/Universities, aspiring to build their career in pharmaceutical industry. This program also caters to the needs of employees of pharmaceutical companies to update their knowledge pertaining to recent developments and to give a different perspective from industry experts.

The duration of course is four weeks and include series of class room sessions by recognized experts from the pharmaceutical industries (Bangalore based), practical demonstrations/hands on exposure in industrial set-up, and interactive work-shop on industrial operations including research and development (formulation & bulk drugs), manufacturing, quality management, regulatory affairs, supply-chain/customer management, and human-resource development.

At the end of this training program, the participants are expected to undergo transition of being matured to undertake industry employment as a career option and should be able to easily induct in the job and perform significantly better than a fresh university graduate. As far as the employees of the companies who undergo this training, have improved understanding of their role in the organisation.

In order to address the current needs of the industry, the institute is launching six more programs especially designed for fresh Pharmacy, Science and Management graduates and also a functional specific module for existing employees of pharma companies.

The learning outcomes of the personality development program are:

Manufacturing & Packing of Dosage Forms

- cGMP of Pharmaceutical manufacturing
- Evolution and Principles of cGMP, Schedule-M, WHO-GMP requirements, EU and USFDA guidelines
- Manufacturing of Dosage Forms
- cGMP complied manufacturing and documentation aspects including Environmental monitoring Cleaning (Equipment, Area, Environment), BMR, Process flow, in-process checks and FP analysis
- Tablets
- Capsules
- Liquid Orals
- Parenterals/ Injectables/ Semisolids/ Ointments

Packaging of Dosage Forms

- cGMP complied packaging and documentation aspects including BPR Process flow, in-process checks, and FP analysis. Labeling requirements for Tablets, Capsules, Liquid Orals, Parenterals / Injectables, and Semisolids / Ointments

Manufacturing of API

- GMP ICH Q7A
- Drug substance development, scale-up, cGMP complied manufacturing and documentation aspects of API production,
- Unit operations,
- Handling of solvent
- Waste management
- Safety of personnel

CIRCULAR

This is to inform all the 1st year students of B .Pharm , Pharm .D , M . Pharm that there is a 4 day **TRAINING ON MEDICAL CODING** by **VISIONARY RCM – THE CARLYLE GROUP** " on 24/02/2020-27/02/2020.

SCHEDULE –

DAY 1 - 24/02/2020 – Morning 8 AM to Evening 7 PM

DAY 2 – 25/02/2020 – Morning 8 AM to Evening 7 PM

DAY 3 – 26/02/2020 – Morning 8 AM to Evening 7 PM

DAY 4 – 27/02/2020 – Morning 8 AM to Evening 7 PM

LUNCH BREAK : 1 – 2 PM

Hence, all the students are instructed to attend the classes without fail

Dr. G. SUMALATHA
PRINCIPAL
Vikas Institute of Pharmaceutical Science
RAJAHMUNDRY-533 102.

Dr. T.V. NARAYANA
PRINCIPAL

TRAINING ON MEDICAL CODING

Medical coding is the transformation of healthcare diagnosis, procedures, medical services, and equipment into universal medical alphanumeric codes. The diagnoses and procedure codes are taken from medical record documentation, such as transcription of physician's notes, laboratory and radiologic results, etc. Medical coding professionals help ensure the codes are applied correctly during the medical billing process, which includes abstracting the information from documentation, assigning the appropriate codes, and creating a claim to be paid by insurance carriers.

Medical coding happens every time you see a healthcare provider. The healthcare provider reviews your complaint and medical history, makes an expert assessment of what's wrong and how to treat you, and documents your visit. That documentation is not only the patient's ongoing record, it's how the healthcare provider gets paid.

LEARNING OUTCOMES

1. Build a fundamental understanding of the human body and medical terminology as they apply to medical billing and coding.
2. Assign and understand diagnostic and procedure codes using ICD and HCPCS/CPT coding systems as used in a variety of settings.
3. Uphold legal and ethical standards and adhere to principles of patient confidentiality within the health care community environment as defined by federal, state, and local guidelines and regulations.
4. Effectively use specialized computer programs (EMR) and the Microsoft Office Suite.
5. Recognize and understand common acronyms used within the industry.
6. Understand and appropriately apply industry-standard payment methodologies.
7. Effectively apply verbal, nonverbal, and written communication principles and skills in the workplace.
8. Demonstrate professionalism through acceptable attitude, organization and time management skills, and attire.

CAMPUS RECRUITMENT TRAINING

Hetero Drugs Limited operates as a pharmaceutical company. The Company researches, manufactures, and markets active pharmaceutical ingredients, intermediate chemicals, and finished dosages. Hetero Drugs serves healthcare industries globally. Ever since its establishment in 1993, hetero showed a tradition of excellence and deep sense of commitment in developing cost effective processes to offer wide range of affordable drugs.

Hetero is a leading international supplier with a rich portfolio of over 200 products from wide range of therapeutic categories both in active pharmaceutical ingredients and finished dosages. Hetero has 36 state of the art manufacturing facilities strategically located worldwide, audited and approved by stringent regulatory authorities like US FDA, EU, TGA-australia, MCC-south Africa and others.

Our portfolio includes 300+ products encompassing major therapeutic categories such as HIV/AIDS, oncology, cardiovascular, neurology, hepatitis, nephrology, urology, diabetes, ophthalmology, hepatology and immunology, etc. Hetero has a strong global presence in over 126 countries and focussed on making affordable medicines accessible to patients worldwide.

Hetero's strength lies in the talent and commitment of the 21000+ employees, who have been playing a vital role in contributing towards our business over the years. At hetero we provide an environment for personal and professional growth. A healthy work life balance is supported through a knowledge driven work environment where ideas and skills are valued, where people can realise a full potential through dedicated training programmes. Hetero strongly believes that each and every employee is the backbone of the organisation and their contribution is respected, recognised and rewarded.

Numerous opportunities exist for qualified, talented and passionate personnel from diverse backgrounds in various departments. No matter, if you are a fresher seeking a good break in pharma industry or an experienced hand with an ability to make the difference, you are welcome to join our pursuit towards excellence while you enjoy a career that is exciting.

OBJECTIVES:

To put Science to work for delivering affordable medicines that will help meet the health needs of every person on our planet.

JOB DESCRIPTION:

Roles and responsibilities

- Coordinating with internal departments like QC, QA, RA, PPIC.
- Maintaining customer database.
- Dispatch the samples to customers.
- Follow up with customers for the update status on the dispatched samples.

CIRCULAR

This is to inform all the 1st year students of B .Pharm , Pharm .D , M . Pharm that there is a 3 day workshop on “ARTIFICIAL INTELLIGENCE” from 27/01/2020-29/01/2020.

SCHEDULE –

DAY 1 - 27/01/2020 – Morning 8 AM to Evening 7 PM

DAY 2 – 28/01/2020 – Morning 8 AM to Evening 7 PM

DAY 3 – 29/01/2020 – Morning 8 AM to Evening 7 PM

LUNCH BREAK : 1 – 2 PM

Hence, all the students are instructed to attend the classes without fail

Dr. G. SUMALATHA
PRINCIPAL
Vikas Institute of Pharmaceutical Science
RAJAHMUNDRY-533 102.

Dr. T.V. NARAYANA
PRINCIPAL

WORKSHOP ON ARTIFICIAL INTELLIGENCE IN HEALTH CARE

WORKSHOP ON ARTIFICIAL INTELLIGENCE IN HEALTH CARE

Motivation and rationale for the workshop

Most of the medical data collected from healthcare systems are recorded in digital format. The increased availability of these data has enabled a number of artificial intelligence applications. Specifically, machine learning can generate insights to improve the discovery of new therapeutics tools, to support diagnostic decisions, to help in the rehabilitation process, to name a few. Researchers coupled with expert clinicians can play an important role in turning complex medical data (e.g., genomic data, online acquisitions of physicians, medical imagery, etc.) into actionable knowledge that ultimately improves patient care. In the last years, these topics have drawn clinical and machine learning research which ultimately led to practical and successful applications in healthcare. The purpose of this workshop is to present recent advances in artificial intelligence techniques for healthcare applications.

Topics

- Biomedical image analysis
- Data analytics for healthcare
- Automatic disease prediction
- Automatic diagnosis support system
- Genomic and proteomic data analysis
- Artificial intelligence for personalized medicine
- Machine Learning as tool to support medical diagnoses and decisions
- Machine learning on handwriting and eye tracking traces for diagnosis and rehabilitation
- Decoding of neural signal for diagnosis assistance
- Physiological signals processing
- Gait analysis
- Therapy selection
- Brain computer interface for healthcare
- Biomechanics for medicine
- Neuromotor rehabilitation

PROFESSIONAL TRAINING ON CURRENT INDUSTRIAL ASPECTS

One of the principal objectives of this training program is to impart industry orientation training/education to the fresh graduates from the Colleges/Universities, aspiring to build their career in pharmaceutical industry. This program also caters to the needs of employees of pharmaceutical companies to update their knowledge pertaining to recent developments and to give a different perspective from industry experts.

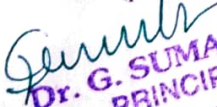

The duration of course is four weeks and include series of class room sessions by recognized experts from the pharmaceutical industries (Bangalore based), practical demonstrations/hands on exposure in industrial set-up, and interactive work-shop on industrial operations including research and development (formulation & bulk drugs), manufacturing, quality management, regulatory affairs, supply-chain/customer management, and human-resource development.

At the end of this training program, the participants are expected to undergo transition of being matured to undertake industry employment as a career option and should be able to easily induct in the job and perform significantly better than a fresh university graduate. As far as the employees of the companies who undergo this training, have improved understanding of their role in the organisation.

In order to address the current needs of the industry, the institute is launching six more programs especially designed for fresh Pharmacy, Science and Management graduates and also a functional specific module for existing employees of pharma companies.

LEARNING OUTCOMES OF THE PROGRAM

- Overview of pharmaceutical industry and its role in healthcare system
- Different functional departments and their role in pharmaceutical industry
- Good Industrial Practices Discipline, personal behaviour, and personal safety Human skills Goal setting, Motivation, Time management, communications & Team work.
- Impart knowledge on facilities, design, HVAC design
- Schedule-M, WHO GMP, EU guidelines and USFDA guidelines.
- Batch reconciliation and Finished goods release
- Self-inspection and quality audits Personnel Training
- Personal hygiene, Premises, equipment and materials
- Change Control
- Deviation-(planned and unplanned)

- Facilities and equipment systems
- Packaging and labeling system - Design of artworks and legal requirements
- GMP ICH Q7A
- Drug substance development, scale-up, cGMP complied manufacturing and documentation aspects of API production.
- Understanding on IND, NDA, ANDA/Dossiers
- Scientific principles involved in the design of novel drug delivery systems(NDDS)
- Concepts of life-cycle management with NDDS
- Requirements for registration and approval of generic products for USFDA (ANDA), EU/AU/SA (Dossier), and TPD (ANDS), etc
- ICH guidelines
- Registration of pharmaceuticals
- Domestic
- Regulated markets ANDAs, DMFs, eCTDs
- BA/BE studies and CRO
- Dossier preparation, submission, approval & maintenance

PERSONALITY DEVELOPMENT PROGRAM

Vikas Institute of Pharmaceutical Sciences always strives to inculcate professional soft skills, leadership quality in students. Soft skills help to handle interpersonal relationships with a strong sense of empathy. It is the need of the hour for every student to sharpen the soft skills to stand out as a promising asset in their professional life. Leadership is the quality with a few are born. A handy tool for those who lack leadership is to develop soft skills and to metamorphose a follower into a leader. The personality development program organized at Vikas Institute of Pharmaceutical sciences help students to develop the fore mentioned traits.

The learning outcomes of the personality development program are:

- Identify, understand and apply contemporary theories of leadership to a wide range of situations and interaction.
- To develop and nurture a deep understanding of personal motivation
- To develop and implement various memory improving techniques
- To develop public speaking skills and eliminating stage fear
- To develop various time management techniques

Speaker:

Dr Jaganath Rao

A Renowned National Motivational Speaker / Soft Skills & Life Skills Trainer / Personality / Development Trainer / Keynote Speaker who has trained more than 5 lakhs students across India.

Since 20 years, he engages Professional Motivational Training Programs like:

- * Interview Skills, Personality Development Training, Study Skills & Exam Skills for Student Community
- * Faculty Development Program (FDP) / Teacher's Training Programs
- * Corporate Training - Soft Skills & Life Skills Development
- * Motivational Seminars for Government Organizations
- * Life-Changing Motivational Seminars for Public at large

TRAINING ON MEDICAL CODING & MEDICAL WRITING

MEDI ASSIST HEALTHCARE SERVICES PRIVATE LIMITED is an Indian company incorporated on 07/06/2000.

They are India's leading HealthTech, and InsurTech company focused on administering health benefits across employers, retail members, and public health schemes. They consistently strive to drive innovation and participate in such initiatives, to lower health care costs.

Health Benefits Administration model delivers the tools necessary for a health plan to succeed, whether it's modular claims management system, technology that unveils data to make crucial decisions, or service solutions built around the voice of the customer.

They help make lives better through curated claim management and health and wellness solutions built on the crux of robust technology. They serve a wide range of organizations that represent virtually every industry and comprise some of the most respected names in the country today.

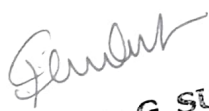

At Medi Assist, they provide meaningful, challenging work and a culture of learning with a focus on professional and personal development. With people coming in from all walks of life, Life at Medi Assist is inspiring and surrounded by stories of success, happiness and loyalty.

➤ **OBJECTIVES:**

- To ensure adequate, qualitative, preventive and curative healthcare to people of the state
- To reduce maternal, infant and neo natal mortality rates

➤ **POLICYHOLDER BENEFITS:**

- Download eCard
- Intimate Claim

Dr. G. SUMALATHA
PRINCIPAL
Vikas Institute of Pharmaceutical Science

CIRCULAR

This is to inform all the 1st year students of B.Pharm, Pharm.D, M.Pharm that there is a 3 day **"PERSONALITY DEVELOPMENT PROGRAM"** by Dr.Jagannath Rao – Motivational speaker on 17/09/2018-19/09/2018.

SCHEDULE –

DAY 1 - 17/09/2018 – Morning 8 AM to Evening 7 PM

DAY 2 – 18/09/2018 – Morning 8 AM to Evening 7 PM

DAY 3 – 19/09/2018 – Morning 8 AM to Evening 7 PM

LUNCH BREAK : 1 – 2 PM

Hence, all the students are instructed to attend the classes without fail

Dr. G. SUMALATHA
PRINCIPAL
Vikas Institute of Pharmaceutical Science
RAJAHMUNDRY-533 102.

Dr. T.V. NARAYANA
PRINCIPAL

PERSONALITY DEVELOPMENT PROGRAM

Vikas Institute of Pharmaceutical Sciences always strives to inculcate professional soft skills, leadership quality in students. Soft skills help to handle interpersonal relationships with a strong sense of empathy. It is the need of the hour for every student to sharpen the soft skills to stand out as a promising asset in their professional life. Leadership is the quality with a few are born. A handy tool for those who lack leadership is to develop soft skills and to metamorphose a follower into a leader. The personality development program organized at Vikas Institute of Pharmaceutical sciences help students to develop the fore mentioned traits.

The learning outcomes of the personality development program are:

- Identify, understand and apply contemporary theories of leadership to a wide range of situations and interaction.
- To develop and nurture a deep understanding of personal motivation
- To develop and implement various memory improving techniques
- To develop public speaking skills and eliminating stage fear
- To develop various time management techniques

Speaker:

Dr Jaganath Rao

A Renowned National Motivational Speaker / Soft Skills & Life Skills Trainer / Personality / Development Trainer / Keynote Speaker who has trained more than 5 lakhs students across India.

Since 20 years, he engages Professional Motivational Training Programs like:

- * Interview Skills, Personality Development Training, Study Skills & Exam Skills for Student Community
- * Faculty Development Program (FDP) / Teacher's Training Programs
- * Corporate Training - Soft Skills & Life Skills Development
- * Motivational Seminars for Government Organizations
- * Life-Changing Motivational Seminars for Public at large

3 DAY WORKSHOP ON CURRENT ASPECTS AND ORIENTATION ON PHARMA INDUSTRY

One of the principal objectives of this training program is to impart industry orientation training/education to the fresh graduates from the Colleges/Universities, aspiring to build their career in pharmaceutical industry. This program also caters to the needs of employees of pharmaceutical companies to update their knowledge pertaining to recent developments and to give a different perspective from industry experts.

The duration of course is four weeks and include series of class room sessions by recognized experts from the pharmaceutical industries (Bangalore based), practical demonstrations/hands on exposure in industrial set-up, and interactive work-shop on industrial operations including research and development (formulation & bulk drugs), manufacturing, quality management, regulatory affairs, supply-chain/customer management, and human-resource development.

At the end of this training program, the participants are expected to undergo transition of being matured to undertake industry employment as a career option and should be able to easily induct in the job and perform significantly better than a fresh university graduate. As far as the employees of the companies who undergo this training, have improved understanding of their role in the organisation.

In order to address the current needs of the industry, the institute is launching six more programs especially designed for fresh Pharmacy, Science and Management graduates and also a functional specific module for existing employees of pharma companies.

LEARNING OUTCOMES OF THE PROGRAM

- Overview of pharmaceutical industry and its role in healthcare system
- Different functional departments and their role in pharmaceutical industry
- Good Industrial Practices Discipline, personal behaviour, and personal safety Human skills Goal setting, Motivation, Time management, communications & Team work.
- Impart knowledge on facilities, design, HVAC design
- Schedule-M, WHO GMP, EU guidelines and USFDA guidelines.
- Batch reconciliation and Finished goods release
- Self-inspection and quality audits Personnel Training
- Personal hygiene, Premises, equipment and materials
- Change Control

TRAINING IN FORMULATIONS, QA& QC

Natco Pharma Limited is a vertically integrated and R&D focused pharmaceutical company engaged in developing manufacturing and marketing of finished dosage formulations (FDF) and active pharmaceutical ingredients (APIs). The company's focus is primarily on niche therapeutic areas and complex products.. FDF products are sold in the United States India Europe and the rest of the world (RoW). Natco's API products are primarily used for captive consumption in its FDF products and are also sold to customers for various international markets such as Brazil Europe and USA. In the API segment Natco has capabilities to develop and manufacture products with multi-step synthesis semi synthetic fusion technologies high-potency APIs and peptides. Natco Pharma is also engaged in contract manufacturing business whereby the company undertakes selected contracts with pharmaceutical companies to manufacture and supply pharmaceutical products. In 2012 Natco Pharma won the first ever compulsory license from Bayer for its patent-protected anti-cancer drug Nexavar in India.

➤ TRAINING

- NATCO Pharma Hyderabad offering 4 weeks pharma industry oriented training programme which has several built in features like exposure to recent trends in pharma through various lectures delivered by eminent scientist from R &D and industry. This is one of the best courses in india We are India's leading HealthTech, and InsurTech company focused on administering health benefits across employers, retail members, and public health schemes. We consistently strive to drive innovation and participate in such initiatives, to lower health care costs.
- Our Health Benefits Administration model delivers the tools necessary for a health plan to succeed, whether it's our modular claims management system, our technology that unveils data to make crucial decisions, or our service solutions built around the voice of the customer.

- for pharma students. More than 33 batches have been successfully organised and more than 90% of students were well placed.
- Students to be covered in this programme are USFDA regulations, IPR, International Laws, Industrial safety, DMF and ANDA submissions, GMP, Patents, preclinical studies, SOPs, air handling and water systems, internal audits, ICH guidelines along with issues related to drug discovery, drug approvals, including Indian and international regulatory procedures. Experts from industry will participate in the training classes. Usually, fresh batches will commence during October every year.

➤ **KEY POINTS**

- Vertically integrated pharmaceutical company with focus on niche therapeutic areas and complex products in Finished Dosage Formulations (“FDF”) and Active Pharmaceutical Ingredients (“APIs”)
- Diversified business model with presence across segments including Domestic & International formulations, API manufacturing and drug discovery
 - Products marketed in over 40 countries
 - Portfolio of 38 niche ANDA filings in the US including 16 Para IV filings and 31 USDMFs filings (as of 31-Dec-2015)
- Strong position in domestic oncology segment with presence in Gastroenterology and Orthopaedics
 - Portfolio of 26 products (as of 31-Dec-2015) catering to various oncology diseases including breast, brain, bone, lung and ovarian cancer
 - Launched the generic version of Gilead’s Sovaldi, under its brand HEPCINAT for the treatment of Hepatitis C
- Strong R&D capabilities supported by two well equipped research centres and seven approved manufacturing facilities (five formulations and two APIs)
- Incorporated in 1981 and headquartered in Hyderabad currently employs over 3,300 employees across all locations
- Strong R&D capabilities demonstrated by its complex and niche product filings in formulations and API segments

IN PLANT TRAINING

One of the principal objectives of this training program is to impart industry orientation training/education to the fresh graduates from the Colleges/Universities, aspiring to build their career in pharmaceutical industry. This program also caters to the needs of employees of pharmaceutical companies to update their knowledge pertaining to recent developments and to give a different perspective from industry experts.

The duration of course is four weeks and include series of class room sessions by recognized experts from the pharmaceutical industries (Bangalore based), practical demonstrations/hands on exposure in industrial set-up, and interactive work-shop on industrial operations including research and development (formulation & bulk drugs), manufacturing, quality management, regulatory affairs, supply-chain/customer management, and human-resource development.

At the end of this training program, the participants are expected to undergo transition of being matured to undertake industry employment as a career option and should be able to easily induct in the job and perform significantly better than a fresh university graduate. As far as the employees of the companies who undergo this training, have improved understanding of their role in the organisation.

In order to address the current needs of the industry, the institute is launching six more programs especially designed for fresh Pharmacy, Science and Management graduates and also a functional specific module for existing employees of pharma companies.

LEARNING OUTCOMES OF THE PROGRAM

- Overview of pharmaceutical industry and its role in healthcare system
- Different functional departments and their role in pharmaceutical industry
- Good Industrial Practices Discipline, personal behaviour, and personal safety Human skills Goal setting, Motivation, Time management, communications & Team work.
- Impart knowledge on facilities,-design, HVAC design
- Schedule-M, WHO GMP, EU guidelines and USFDA guidelines.
- Batch reconciliation and Finished goods release
- Self-inspection and quality audits Personnel Training
- Personal hygiene, Premises, equipment and materials

Dr.T.V.NARAYANA
PRINCIPAL

PERSONALITY DEVELOPMENT PROGRAM

Vikas Institute of Pharmaceutical Sciences always strives to inculcate professional soft skills, leadership quality in students. Soft skills help to handle interpersonal relationships with a strong sense of empathy. It is the need of the hour for every student to sharpen the soft skills to stand out as a promising asset in their professional life. Leadership is the quality with a few are born. A handy tool for those who lack leadership is to develop soft skills and to metamorphose a follower into a leader. The personality development program organized at Vikas Institute of Pharmaceutical sciences help students to develop the fore mentioned traits.

The learning outcomes of the personality development program are:

- Identify, understand and apply contemporary theories of leadership to a wide range of situations and interaction.
- To develop and nurture a deep understanding of personal motivation
- To develop and implement various memory improving techniques
- To develop public speaking skills and eliminating stage fear
- To develop various time management techniques

Speaker:

Dr Jagannath Rao

A Renowned National Motivational Speaker / Soft Skills & Life Skills Trainer / Personality / Development Trainer / Keynote Speaker who has trained more than 5 lakhs students across India.

Since 20 years, he engages Professional Motivational Training Programs like:

- * Interview Skills, Personality Development Training, Study Skills & Exam Skills for Student Community
- * Faculty Development Program (FDP) / Teacher's Training Programs
- * Corporate Training - Soft Skills & Life Skills Development
- * Motivational Seminars for Government Organizations
- * Life-Changing Motivational Seminars for Public at large

WOMEN ENTREPRENEURSHIP AWARENESS

Women entrepreneurship is the process in which women initiate a business, gather all resources, undertake risks, face challenges, provides employment to others and manages the business independently. Approximately 1/3rd of the entrepreneurs in the world are women entrepreneurs.

OBJECTIVES:

- ✓ Growth in literacy level
- ✓ Industrial and economic growth
- ✓ Awareness of democratic values
- ✓ Organisations promoting women entrepreneurship
- ✓ Financial assistance and consultancy services provided by financial institution.

PROBLEMS FACED BY WOMEN ENTREPRENEURS:

- WOMENS PROBLEMS IN INDIA

Women entrepreneurs face a difficulty due to specific women problems in india arising due to old traditions, sociocultural norms, male dominant society, family responsibility, Indian values and ethics

- ENTREPRENEURIAL PROBLEMS

1. Corruption in government agencies
2. Price and availability of raw materials
3. High competition in low technology products
4. Financial problems
5. Face technological obsolesce due to lack of support

- SPECIFIC PROBLEMS TO WOMEN

1. Mobility problems
2. Family responsibility and lackof support from family members
3. Exploitation by middle man
4. Women have to be dependant on men for doing work which requires muscular strength
5. Women are perceived to be weak in the Indian society, hence men are preferred over women to face troubles and hardships related to an enterprise

- Women entrepreneurship- Areas:

G. Sumalatha

Dr. G. SUMALATHA
PRINCIPAL
Vikas Institute of Pharmaceutical Science
RAJAHMUNDRY-533 102.

T.V. Narayana
Dr.T.V.NARAYANA
PRINCIPAL

Women entrepreneur in earlier years after independence were confined to entrepreneurship in traditional areas like food, fruits, vegetables, pickles, papads, tailoring, hosiery etc. However, often, Women entrepreneurs have branched out to several new areas like engineering, beauty parlours, jewellery, handicraft, electrical, electronics, chemical and other manufacturing. This shows that entrepreneurial base of women expanded from traditional 3Ps – pickle, powder and papad to modern 3ES – Engineering, Electrical and Electronics

- **Factors influencing:**

There are different factors influencing woman to become an entrepreneur. Such factors can be divided into two – (1) the push and (2) the pull factors. The push factor is allied with negative environment and the pull factor is attributed to the push factor may result from low income, low job satisfaction or lack of job opportunities and strict working hours.

TRAINING ON SCHEDULE-M, WHO GMP, EU GUIDELINES AND USFDA GUIDELINES

One of the principal objectives of this training program is to impart industry orientation training/education to the fresh graduates from the Colleges/Universities, aspiring to build their career in pharmaceutical industry. This program also caters to the needs of employees of pharmaceutical companies to update their knowledge pertaining to recent developments and to give a different perspective from industry experts.

The duration of course is four weeks and include series of class room sessions by recognized experts from the pharmaceutical industries (Bangalore based), practical demonstrations/hands on exposure in industrial set-up, and interactive work-shop on industrial operations including research and development (formulation & bulk drugs), manufacturing, quality management, regulatory affairs, supply-chain/customer management, and human-resource development.

At the end of this training program, the participants are expected to undergo transition of being matured to undertake industry employment as a career option and should be able to easily induct in the job and perform significantly better than a fresh university graduate. As far as the employees of the companies who undergo this training, have improved understanding of their role in the organisation.

In order to address the current needs of the industry, the institute is launching six more programs especially designed for fresh Pharmacy, Science and Management graduates and also a functional specific module for existing employees of pharma companies.

LEARNING OUTCOMES OF THE PROGRAM

- Overview of pharmaceutical industry and its role in healthcare system
- Different functional departments and their role in pharmaceutical industry
- Good Industrial Practices Discipline, personal behaviour, and personal safety Human skills Goal setting. Motivation, Time management, communications & Team work.
- Impart knowledge on facilities, design, HVAC design
- Schedule-M, WHO GMP, EU guidelines and USFDA guidelines.
- Batch reconciliation and Finished goods release
- Self-inspection and quality audits Personnel Training

ANTICOAGULATION CLINIC- ROLE OF PHARMACY PROFESSIONALS

This work shop is aimed to provide a platform for Pharm.D professionals who would be competent and capable of performing safe and effective practice of health care services. Anticoagulation Clinics (ACs) are services specialized in management of patients on anticoagulant treatment. At present, ACs manage patients chiefly on antivitamin K antagonists (AVKs), but patient population has already changed in the last few years, because of an increase of treatments with other anticoagulant drugs, which require different management systems. The strong increase in the number of patients at AC, mainly on long-term treatment, has determined the development of web management, through telemedicine systems, improving the quality of life and maintaining the same clinical quality levels. New oral anticoagulants (NOAs) have shown to be as effective as AVK antagonists in stroke prevention in atrial fibrillation and for treatment of venous thromboembolism in addition to VTE prophylaxis in orthopaedic surgery, when administered at a fixed dose, but patient adherence and compliance are crucial for good quality treatment. At present, lacking data from the real world, an oversimplification of treatment with NOAs could cause unjustified risks for patients and also a possible future underuse of good drugs. For these reasons the vigilance must be high and ACs can have a crucial role in defining which is the best management for NOA patients and how to do it, as it happened for AVKs.

Learning outcomes :

- Agents used to prevent clot formation
 - Extrinsic and intrinsic pathways of coagulation
 - Anti platelets
 - PDE inhibitors
 - Warfarin discovery
 - Why anticoagulation clinic only for warfarin
 - Drug interactions with warfarin and its management
 - Parenteral anti coagulants
- Atrial fibrillation a review
 - Risk factors for stroke in atrial fibrillations
 - Indications of anti thrombotic therapy
- Venous thromboembolism
- Coagulations check XS monitor
- Patient education on anti coagulants
- Case studies
